PROFESSIONAL SUMMARY

Computer Science Engineering student with an 8.6 CGPA and internship experience at IISc Bangalore (CYSECK). Skilled in full-stack development, machine learning, and cybersecurity analytics. Experienced in developing AI-powered visualization tools, gesture-controlled drawing systems, and automated institutional platforms using React, Django, and TensorFlow.

INTERNSHIP EXPERIENCE

Cyber security Intern—CYSECK,IISc Bangalore

Feb 10 – Mar 30, 2024

- SolvingMachines • NetworkProtocols • Servers • Vulnerabilities • Ethical Hacking • Firewall Rules
- Analyzed ML-based threat detection paradigms and system security optimization within a research environment.
- Assisted in monitoring network traffic to proactively mitigate potential vulnerabilities.

TECHNICAL SKILLS

Languages:	Python, JavaScript, HTML5, CSS3, SQL (MySQL)
Frameworks & Libs:	React.js, Node.js, Django, Flask, TensorFlow, OpenCV, MediaPipe, NumPy, Pandas
Tools & DevOps:	Git, GitHub, Docker, Kubernetes, AWS (Basic), VS Code, AI-Powered Dev Tools
Core Subjects:	DBMS, Operating Systems, Computer Networks, Software Engineering, AI Search Algorithms
Soft Skills:	Problem Solving, Team Collaboration, Strategic Communication, Time Management

PROFESSIONAL CERTIFICATIONS

- CCNA: Switching & Wireless— Cisco
- GenAI Data Analytics — TATA
- AI Fundamentals — IBM
- Generative AI Workshop —AccurateInfo
- CCNA: Enterprise Networking — Cisco
- Data Analytics — Deloitte Australia
- Software Engineering — Accenture
- Internship Programme — IISc Bangalore

KEY TECHNICAL PROJECTS

Farmer–Consumer Transparency Platform

- Developed a full-stack web application designed to facilitate direct trade between farmers and consumers.
- Implemented real-time pricing visibility and digitized workflows to enhance market transparency.

Graph Traversal Visualization Tool

- Engineered an interactive platform to visualize BFS, DFS, and IDDFS for academic training.

ExamDuty Allocation System

- Optimized scheduling by automating faculty duty matching using OCR data extraction.

ACHIEVEMENTS & ACTIVITIES

- **NASA Space Apps Challenge:** Two-time Global Nominee for innovative technical solutions.
- **Advaya Hackathon 2.0 (2026):** Developed scalable software solutions within an intensive sprint.
- **Hackshast ra Hackathon :** Designed the solution to be suitable for large agricultural operations and industry-level applications..
- **TechnicalVolunteering:** Contributed to the execution of Advaya Hackathon 2025 at BGSCET.

ACADEMIC BACKGROUND

B.E i nComputerScienceAnd Engineering— BGS College of Engineering & Tech. **8.6 CGPA**

Expected Graduation: 2027

Diploma inComputer Science And Engineering — IR Polytechnic **9.4 CGPA**

Completed 2024
